

This pizza is a No-bake pizza made fresh to order from Dave's with the same quality ingredients you have grown to love when dining in our restaurant. By following instructions properly, you will produce a pizza at home comparable to the ones served to you at Dave's!

Pre-heat oven to 450 degrees, place non-frozen pizza on middle oven rack (do NOT remove from parchment paper). Bake on parchment for 10-15 minutes, observing crust browning and cheese coloration at 5 min intervals. Bake long enough to achieve crisp light brown bottom without overcooking cheese topping. For crispier crust remove parchment part way through cooking.

*If product is frozen after purchase, use within 2 weeks.

*No additions of product preservatives added.

*Keep refrigerated or frozen.
